Whether the legend was true or not, Nguyễn Binh has been known to many Vietnamese as a hero and a military genius. In another aspect, Nguyễn Binh also typifies the patriots on the Việt Minh side, who were suspected of being opposed to the rule of Hồ Chí Minh, and thus became victims of Hồ Chí Minh’s bloody purge to eliminate his potential rivals.

There are many unanswered questions regarding the Nguyễn Binh case.

Les histoires qui circulent à son sujet sont inombrables. Il s’est vanté lui-même d’avoir fait sauter la pyrotechnie de Saigon, dont l’explosion au printemps dernier resta toujours mystérieuse. Mais la légende s’est emparée de lui, et le soir, dans les campagnes, les enfants s’endorment au récit de ses exploits que les poètes ambulants ont mis en chanson. La police a mis sa tête à prix : vingt mille piastres. Mais il reste insaisissable [...] Mais pour les partisans du Việt Minh de Cochinchine, Nguyễn Binh ne mourra pas. Et dans les rizières et dans la brousse, c’est son nom que tous les jours, les armées continueront d’attaquer, sans trève, les troupes françaises qui depuis des mois doivent se battre contre un ennemi insaisissable.

The French army's great effort under Napoleon led to their defeat at the Battle of Waterloo (1815), marking the end of the Napoleonic Wars.
The Fall of Nguyen Phu

The fall of Nguyen Phu led to the collapse of the Democratic Republic of Vietnam, a crucial event in the history of Southeast Asia and the Vietnam War. The events leading up to the fall of Phu do not feature prominently in the source text provided, but it is known that the Vietnamese forces were engaged in a conflict with the American-supported South Vietnamese forces. The fall of Phu marked a significant victory for the North Vietnamese, who were able to consolidate their control over much of the country. This led to increased pressure on the South Vietnamese regime and eventual withdrawal from the war by the United States.
